CONCEPT

5Dhome CONCEPT

Como produtores de sistemas de aço enformado a frio e híbridos com aço laminado (**STEELme**) e ainda de sistemas de placagem Térmica, Acústica a Resistente ao fogo (**FLEXon-me**), oferecemos ao mercado um conceito (**5Dhome**) de construção rápida, sustentável, ecológica, reciclada, reciclável, reutilizável, térmica, acústica, resistente ao fogo, confortável, baixo custo de manutenção, custos controlados e de elevada qualidade.

Como productores de sistemas de acero conformado en frío e híbrido con acero laminado (STEELme) y sistemas de revestimiento térmico, acústico y resistente al fuego (FLEXon-me), ofrecemos al mercado un concepto (5Dhome) de construcción rápida y sostenible, ecológico, reciclado, reciclable, reutilizable, térmico, acústico, resistente al fuego, cómodo, bajo costo de mantenimiento, costos controlados y alta calidad.

En tant que producteurs de systèmes d'acier formés à froid et hybrides avec de l'acier laminé (STEELme) et des systèmes de placage thermique, acoustique et résistant au feu (FLEXon-me), nous proposons au marché un concept (5Dhome) de construction rapide et durable, écologique, recyclé, recyclable, réutilisable, thermique, acoustique, résistant au feu, confortable, faible coût d'entretien, coûts maîtrisés et haute qualité.

As producers of cold-formed and hybrid steel systems with rolled steel (STEELme) and thermal, acoustic and fire resistant (FLEXon-me) plating systems, we offer the market a concept (5Dhome) of fast, sustainable construction, ecological, recycled, recyclable, reusable, thermal, acoustic, fire resistant, comfortable, low maintenance cost, controlled costs and high quality.
